

LAB 5 – WEB IN PYTHON: FIRST APPROACH TO FLASK

EXERCISE – TRANSFORM THE TODO LIST IN A SIMPLE WEB APPLICATION

Write a web application, based on the flask framework¹, to implement a web-based version of the program developed in the last exercise of the forth laboratory (todo_list_db_ex2c.py).

The web application should display, in its main page (see Figure 1), a list of all existing tasks and should provide:

- a) a “Delete” button near each task;
- b) a form to insert a new task.

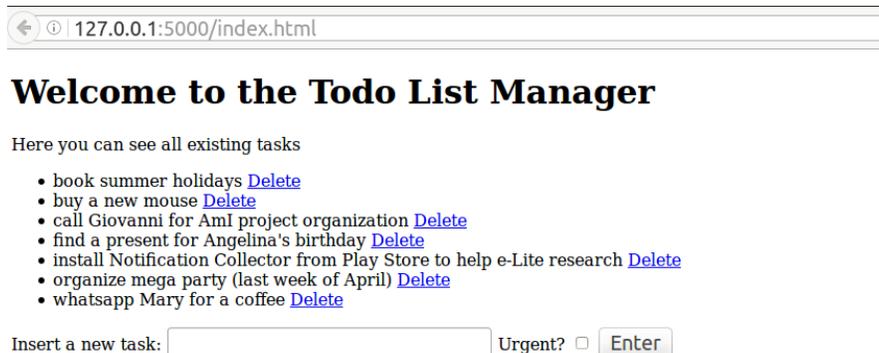

Figure 1 - Index

Figure 2 shows the site map of the web application you should implement.
